| George Brozowski                     |   | Assistant Safety Officer                               |  | EPA                                   |
| <b>8. Activity Log:</b>              |   |  |  |                                       |
| <b>Time</b>                          | <b>Notable Activities</b>   |  |  |                                       |
| 0700                                 | Prepare the daily ops briefing safety message from the incident safety message.   |  |  |                                       |
| 0715                                 | Deliver the daily ops safety message geared toward insect repellent use and ticks, driving and boating safety, and the importance of diffusing conflict in neighborhoods.   |  |  |                                       |
| 0745                                 | USCG ASOs departed for field safety audits of water container recovery team. Talked with SO David Eppler about delayed resource request, issues with neighborhood militias and our operations, and safety message for tomorrow.     |  |  |                                       |
| 0830                                 | Discussed the ERRS HASP for container recovery pad operations as it related to gas cylinders with the Staging Area Group Supervisor.  |  |  |                                       |
| 0900                                 | Attended pre-Tactics Meeting and began developing the 215A Operational Risk Management for the upcoming operational period. Begin review of the 204s. Completed the language for the 204s. Sent to the PSC.                         |  |  |                                       |
| 1000                                 | Heard about a safety incident for the water container recovery teams involving a boat throttle issue that led to a collision. No injuries. Minor damage to vessel. Began drafting the EPA 301 incident report.                      |  |  |                                       |
| 1100                                 | Attended Tactics Meeting and communicated with SO Eppler about boat incident.   |  |  |                                       |
| 1200                                 | Sent finalized EPA 301 to SO David Eppler. Departed for lunch with ASOs.  |  |  |                                       |
| 1300                                 | Return from lunch. Resume development of the special instructions for the 204s. Contact with SO regarding 213RRs and the status of logistical requests. Completed the language for the 204s. Sent to the PSC.                       |  |  |                                       |
| 1400                                 | ASO George Brozowski arrived and was given an orientation to the Bravo Branch mission assignments, situation, resources, and an overview of the safety issues presenting themselves in the container recovery.                      |  |  |                                       |
| 1600                                 | Discussed water container recovery operation with Harris County Sherriff's office, deputy branch chief, and branch chief. Chiefs recommended standing down the operation until a platform work boat could be brought in on Tuesday. |  |  |                                       |
| 1730                                 | Completed and Sent ICS 214 to SO David Eppler   |  |  |                                       |
|                                      |   |  |  |                                       |
